

Dear AAPPS-DPP members

During the 1st Asia-Pacific Conference on Plasma Physics, we had RMPP Editorial Board Meeting. One of BoE, Prof. Don Melrose pointed out lack of retrieval to SAO/NASA Astrophysics Data System (ADS).

Springer-Nature worked out technical problem with DAS personnel and seems solved the main problem. New articles by Prof. Sugama and Zong need more time to appear at ADS. We hope you to understand that RMPP system is still not complete and making progress to meet your requirement.

Sincerely yours,

M. Kikuchi
