

Applications are invited for 2 postdoctoral positions in the group of Prof. Ping Zhu at USTC (<http://plasma.ustc.edu.cn>) to work in the field of plasma theory and computation (fusion and/or space plasmas).

The initial appointment will be for 2 years. The stipend for each postdoctoral position will be 200K CNY (Chinese Yuan) per year. In addition, the postdocs will have opportunities to apply for their own research funding from multiple agencies such as China Postdoctoral Science Foundation and National Natural Science Foundation of China, among others.

The positions are expected to start immediately and no later than the end of 2017. A cover letter/email along with a copy of CV would be sufficient for the initial inquiry/application. The application will continue to be accepted until the positions are filled. Please contact Dr. Ping Zhu at pzhu@ustc.edu.cn for more information.
