

Dear Prof. Kikuchi, AAPPs-DPP CEO,  
If possible, please forward the following info on an open call for contributions to our AAPPs-DPP colleagues.  
Thanks in advance!  
Rony

---

We would like to announce an open call to contribute abstracts/papers to a new Frontiers Research Topic:

<https://www.frontiersin.org/research-topics/20360/fluid-and-kinetic-instabilities-in-astrophysical-and-space-plasmas>

Deadlines are:

Abstract deadline: 10th May 2021  
Manuscript deadline: 7th September 2021

The aim is a new cross-disciplinary topic on plasma instabilities ... to gather studies on a broad range of solar and astrophysical processes. We believe that results and methods should be shared among a wide range of sub-communities in astrophysics. This topic will be listed in several sections of Frontiers in Astronomy and Space Sciences as well as in Frontiers Physics.

Topic editors: Victor Reville, Maria Elena Innocenti, Fulvia Pucci, Munehito Shoda, Rony Keppens

Feel free to distribute this call to interested parties...
