

The 15th International West Lake
Symposium - Frontiers in Laser
Plasma Physics (IWLS2025)

June 6 - 9, 2025 Hangzhou, China

1st announcement of IWLS2025

The 15th International West Lake Symposium - Frontiers in Laser Plasma Physics (IWLS-2025) will be held in Hangzhou, China, June 6 - 9, 2025. IWLS-2025 will be hosted by the Institute for Fusion Theory and Simulation (IFTS), Zhejiang University (ZJU).

The IWLS Symposium series was launched in 2006 when IFTS was established in Zhejiang University. It covers a broad scope on plasma sciences; including laser fusion physics, magnetic fusion physics, space plasma physics, laser plasma physics and high-energy-density physics. IWLS-2025 will cover the following topics: inertial confinement fusion, laser plasma interaction, laser particle accelerator, novel radiation sources, strong-field QED, and other laser-plasma related studies. In addition, there will be a Special Memorial Session in honor of the late Professor Kunioki Mima; a close colleague and friend of IFTS. Scientists and graduate students from around the world are welcome to present theory, simulation and experimental results related to these topics.

Conference Form: Invited talks, oral talks, and posters.

Conference Language: English

Sponsor: Institute for Fusion Theory and Simulation, Zhejiang University
