

Dear Colleagues,

This is the first announcement of 9th East-Asia School and Workshop on Laboratory, Space, and Astrophysical Plasmas which will be held

July 29 - Aug 2, 2019 at Nagoya University, Nagoya, Japan.

Purpose of the school and workshop is three-folds, that is,

- 1) to introduce basic physics of laboratory, space, and astrophysical plasmas and provide training to young scientists,
- 2) to bring scientists from laboratory plasma physics, space plasma physics, and astrophysics together and exchange ideas and latest results, 3) to foster future collaborations especially in the East-Asian region and also around the world.

In this year, we are going to provide a tutorial lecture on data science in astrophysics.

Please refer the following site for more details.

We look forward to hosting your participation!

Thank you.

Best regards,

Tomo-Hiko Watanabe

Chair of SOC and LOC for EASW9
