

**Dear AAPPS-DPP Members**

**We will have RMM campaign in parallel with AAPPS-DPP2020 remote e-conference.**

**Below 5 articles recently published in RMPP will be free access during Oct 16- Nov. 16.**

- 1. D.B. Melrose: Quantum kinetic theory for unmagnetized and magnetized plasmas**
- 2. A.E. Dubinov, et al., : Research with plasma foci in countries of Asia, Africa, and Latin America**
- 3. F. Sahraoui et al., Magnetohydrodynamic and kinetic scale turbulence in the near-Earth space plasmas: a (short) biased review**
- 4. R. Keppens, et al., Ideal MHD instabilities for coronal mass ejections: interacting current channels and particle acceleration**
- 5. G. Manfredi et al., Phase-space modeling of solid-state plasmas**

**September 03, 2020**

**Sincerely yours,**

**M. Kikuchi, Chair of RMPP**
