

Dear AAPPS-DPP members,

Dr. Yap Seong Ling informed me Post Doc and PhD in UM, Malaysia.
Apply if interested.

Regards,
M. Kikuchi, CEO

Dear Kikuchi Sensei,

Greetings ! I wish to thank you for a great effort to keep an active network of the plasma physics research community. Appreciate the regular updates and sharing of information.

I would like to take this opportunity to inform on the vacancies of Post Doc Research Fellow (PDRF) in the field of plasma physics at the Universiti Malaya, Kuala Lumpur, Malaysia. The application must be supported by PI with research grant in the specific project. Interested candidates working on pulsed plasma diagnostics, plasma gas conversion and cold plasma application (on innovative system design and generation of plasma) can contact me : yapsl@um.edu.my with a copy of CV and filled forms for the PDRF. More information and application forms are available here: <https://umresearch.um.edu.my/join-us/post-doctoral-fellowship/>

Position of PhD under the Graduate Research Assistantship (GRA) is also available. This is the link for PhD program application : <https://study.um.edu.my/how-to-apply-doctorate>. GRA will be from my grants. Candidate is expected to register in early 2024. As the grants are in the middle stage, the GRA only applicable for excellent candidates that can immediately contribute to the outcome of the research projects.

Thank you, your support is much appreciated.

Best regards,

Ling

Associate Professor Dr. Yap Seong Ling
