

December 10, 2025

Dear AAPPS-DPP members,

Our DPP member Amar Prasad Misra informed me following focus issue at Physica Scripta (IF=2.6).

If you are interested, please take a look.

Amar is author of "Wave-particle interactions in quantum plasmas" in RMPP 2022 (cited 17 times)

one of papers of Topical collection "New Aspects of Quantum Plasma Physics" by Prof. A.A. Mamun.

Sincerely yours,

M. Kikuchi, CEO

Dear Prof. Kikuchi,

I hope you are doing well. I am happy to share with you that the Physica Scripta journal has turned 55 this year, and as a part of the celebration, we have announced a focus issue collection:

<https://iopscience.iop.org/collections/ps-251203-1017>.

We invite contributions of review articles in almost all branches of physical sciences within the scope of the journal, including atomic, molecular, and optical physics, plasma physics, condensed matter physics, mathematical physics, and nonlinear science.

Please circulate this information among the fraternities of AAPPS-DPP and others.

We look forward to contributions from broader research communities and participation in the anniversary.

Best regards.

Amar P. Misra

Editor-in-Chief, Physica Scripta (IOPscience)
